SUBJECT INDEX TO VOLUME 33

Allometry, statistical methods, blackbirds, 444
Behavior
  egg eating in flour beetles, 585
  life cycles in 17-year cicadas, 1193
  fratricide in raptors, 1219
Book reviews
  Some Problems with the Evolution of Sex, 776
  Arthropod Evolution and Classification, 1005
  The Genetics of Behavior, 1006
  Evolutionary Biology, 1007
  Evolutionary Principles of the Mammalian Middle Ear, 1230
Breeding systems
  floral display, 52
  self-fertilization, 252
  tristyly, models, 486
  tristyly in water hyacinth, 499
  vegetative reproduction in plants, 517, 519
  dioecy in Umbelliferae, 662
  in the common fig, 673
  in parthenogenetic versus bisexual species, 774
  in parthenogenetic lizards, 1150, 1167
  avian polygyny versus population dynamics of indigo buntings, 1180
  floral display of *Catalpa speciosa*, 1200
Character displacement
  in *Calopteryx* (Odonata), 104
  ecological in catostomid fishes, 877
  community wide, 897
Chromosomal variation
  in *Warramaba* (formerly *Moraba*), 85
  in bats, 220
  to estimate deme sizes, 234
  in black flies, 296, 309
  and DDT resistance in *Drosophila*, 342
  and fitness estimates, 359, 371
  in Mexican *Drosophila pseudoobscura*, 381
  and genetic variation, rates of evolution, 734
Colonization, after fire, *Drosophila*, 156
Competition, in laboratory *Drosophila*, 207
Demography
  of snails, 417
  neighborhood size in *Viola*, 1226
Ectothermy, dinosaur success, 983
Evolution
  of sting apparatus in ants, 117
  of altruism, 319
  of snake fangs, 433
  convergent, 511
  of predator-prey handling time, 765
  of mite host range, 791
  in isolated populations of island finches, 834
  of color and pubescence in bumblebees, function, 941
  temperate fruit/bird interactions, 973
  of paedomorphosis in salamanders, 998
  albumin versus biochemical, salamanders, 1057
  of competitive ability in *Drosophila*, 1138
Genetics
  of cold resistance in *Drosophila*, 350
  heterozygosity and developmental stability, 396
  in analysis of multivariate evolution, 402
Genetic variation
  in bluegills, 15
  in *Poeciliopsis*, 27
  in homosequential *Drosophila*, 137
  in *Gammerus minus*, 192
  in *Aedes aegypti*, 287
  in polygynous *Myrmecia pilosula*, 335
  microhabitat heterogeneity and gametic phase disequilibrium, 521
  in the narrow endemic *Oenothera organensis*, 534
  in Hawaiian *Drosophila mimica*, 543
  and population structure in *Poeciliopsis*, 563
  drift in *Tribolium*, 579
  in diploid-tetraploid treefrogs, 595
  and sympatry in orioles, 624
  and frequency-dependent mating in *Drosophila pseudoobscura*, 634
  and breeding colors in *Gasterosteus*, 641
  and ecological generalism in *Drosophila falleni*, 741
  and host plant relations in a moth, 777
  and environmental associations in wild barley, 815
  and ecological amplitude of *Spartina patens*, 1114
  and founder effect in pitcher plant, 1210
Hybridization
  in *Cerion*, 714
  in *Thomomys*, genetic, phenetic and ecologic patterns, 860
  in *Rana pipiens* in central Texas, 1069
  in *Bufo boreas* and *B. punctatus*, 1089
  in milkweed bugs (*Oncopeltus*), 1098
Mimicry, Batesian, swallowtails, 275
Morphological variation
  in *Arphia* (grasshoppers), 64
  heritability in song sparrow, 460
  shell architecture and death in snails, 686
  shell architecture and fish predation, 697
  sexual dimorphism in a rotifer, 919
Mutual facilitation, *Drosophila melanogaster* larvae, 768
Parental care, in common grackle, 41
Phylogeny
  and gene duplication in *Clarkia*, 1024
  relationship between man and apes, 1040
Protoadaptation, 227
Reproductive isolation
  in dayflying moths (*Hemileuca*), 728
  Hawaiian *Drosophila*, 771
Selection
  food size and fitness in *Acheta*, 95
  sexual, and body size in blackbirds, 649
  group, *Tribolium*, 749
  natural, resisting inbreeding depression, 929
  fire, lodgepole pine serotiny model, 958
  fire, lodgepole pine serotiny, mathematical analysis, 969
  on amylase enzymes in *Drosophila melanogaster*, 1128

Sibling species, temperature tolerance in *Drosophila*, 131
Speciation
and mating patterns in fairy shrimp, 172
genetics of, whitefishes, 478
in Hawaiian *Drosophila*, 513
Species differentiation
in Cichlid fishes, 1
in fiddler crabs, 182
in field crickets, electrophoretic evidence, 1009
genetics, *Drosophila melanogaster* group, 1063
Species richness-area
cynipid gall wasps on oak trees, 257
birds on Minnesota islands, 468
Variation
clinal in the green frog, 609
in pine monoterpenes related to predation, 803
in thermal tolerance in unisexual fishes, 848
sex ratios and sex differentiation in aspen, 914
and evolutionary rate in *Menidia*, 1001

EVOLUTION

INTERNATIONAL JOURNAL OF ORGANIC EVOLUTION

Volume XXXIII, 1979

DAVID B. WAKE
Editor

WILLIAM L. BLOOM
Managing Editor

Published Quarterly
At Allen Press, Inc., Lawrence, Kansas 66044
